

Sport Premium: Financial Year 2013-2014

Allocation and Impact

£5,168 (approx.)	
Redevelopment of main school playground (including running track) – Part funded	
Provision of specialist dance teacher – part funded	
School Sports Partnership membership (including staff training and membership of competition leagues) – part funded	
Provision of swimming lessons	
Release time for staff development	
Total	£5,168

Impact:

- Pupils have become more active in their playtimes, often they will use the running track/ mixed sport walls to create games and play with their friends. This is being further developed by the training of play leaders who are supporting the use of games that keep children active.*
- Pupils have all benefitted from specialist dance teaching which is improving the attainment and progression of dance across the school (as this is part funded by sports premium – it is sustainable in the long term). The dance teacher works alongside mainstream teachers in EYFS and develops their practice.*
- The school buy into the Sport's partnership allows the school to take part in competitions and has provided staff NQIs and main-scale with training opportunities*
- Outstanding PE teachers across the school are being released to support the provision of PE in other year groups, which is developing practice in the long term across the school.*
