

Central Primary School Curriculum Overview

Autumn 1 - 2021/2022

Year 6

English	Guided Reading	Maths	Science
<p>Persuasive We will start our English with a unit on persuasion in the form of an advert. We will look at particular features of this text type, gathering relevant content and focusing on using persuasive strategies to sway the reader into thinking and feeling what we want them to.</p> <p>Narrative We will be exploring alternative endings to traditional tales. Children will have to think how characters develop new personality traits that fit their new story, alongside with how they interact including dialogue and action. Children will also have to think how parts of the story can end to keep the audience engaged.</p>	<p>'Pax' by Sarah Pennypacker 'The Tiger Rising' by Kate Dicamillo Using these books, we will start with focusing on children's reading fluency, practising choral and echo-reading, so children learn to read with a variety of emotions, which will help with comprehension. We will also develop pupils' inference and deduction. This work will then be developed to express their own opinions and incorporate the views of others in their work.</p> <p>In order to develop pupils' thinking, we will be helping them develop their thinking skills and recording methods to ensure they can maximise the usage they are getting from their reading so it helps them respond more effectively to questions.</p>	<p>Place Value: Pupils will build upon their understanding of place value up to 10,000,000 and learn various ways that numbers can be partitioned.</p> <p>Addition and Subtraction including decimals Pupils will apply their place value knowledge to addition and subtraction formal methods, paying close attention to how columns change when digits need carrying and borrowing.</p> <p>Multiplication and division including decimals Pupils will explore formal methods to solve multiplication and divisions in the most effective way.</p>	<p>Electricity This work will be both theory and enquiry based with pupils exploring and considering their thinking and applying their electricity knowledge to design and make a game at the end of the unit.</p>
History	Computing	RE	PSHCE
<p>Anglo-Saxons In history, this term the children will look into the Saxon era, focusing on the Scots and Picts, the different kingdoms under Saxon rule and the Vikings and their invasions. They will be creating timelines, using sources to learn about the people of the time and doing their own research to create presentations.</p>	<p>E-safety Children will progressively learn and understand the risks of being online and more importantly, of making use of our technologies irresponsibly. Additionally, how to deal with abuse or issues will be a topic taught across the years groups. Our efforts are aimed to keep our children safe at all times and provide them with the ability and maturity to use the technologies responsibly.</p>	<p>Understanding Core beliefs and Values In Y6, Buddhism is our focus religion. Children will get to know about key Buddhist beliefs and how they compare to the other religions they have studied in the past.</p>	<p>Me and My World In this unit, the children will develop their understanding of themselves and the environment they are in. They will identify their strengths and what they want to improve on.</p>

Music	Art	Design and Technology	PE
<p><i>Rhythm reading and writing</i></p> <p>In music, we will be looking at part singing and choral singing. We will be learning about two musical concepts: Timbre, we will see how voices and instruments blend together to create one harmonious sound; and phrase, we will continue to explore how in a phrase, groups of notes that belong together cannot be separated.</p>	<p><i>Portraits</i></p> <p>We will be exploring the work of Lynette Yiadom Boakye, thinking about how portraits capture more than just faces and learning how to draw portraits using facial proportions.</p>	<p><i>Puppets</i></p> <p>The children will begin their year-long puppet project in this half term. They will be designing their puppets, sets and props and begin to create their puppets.</p>	<p><i>Skills 7 - Multi sports</i></p> <p>The children will learn to play a variety of different sports and practice the skills they have been developing across their primary education. These sports include football, handball, basketball and cricket.</p>
Dance	Spanish		
<p>5 Dance Actions / Healthy body healthy mind</p> <p>To develop a basic understanding of the 5 dance actions and a variety of choreographic devices to add to choreography. To understand the importance of healthy body, healthy mind.</p>
